

Petro Lebedinets

An artist takes the color to its absolute meaning and frees it from the form and subject. Petro Lebedinets, being an abstract artist, embodies the space, spirit and the inspiration of all colors in the spots. Life-affirming harmony reigns in his works. His colors are delicate and temperamental, explosive and lyrical, mysterious and true. Their meaning is deeply intuitive, and composition is precise and rational.

Broad strokes, raised texture. Colors are accumulated and illuminate each other on the canvas. Thus, emotions and feelings change kaleidoscopically in the human soul. The night city lights merge into one glowing picture. This is what happens when one watches the light, and then closes the eyes tight.

His world exists separately from reality, and operates under the laws invented by the author. Each painting is a live pulsating body.

Any attempt to understand, to compare, must be based on some criteria. You need a point of reference. If the sun in the sky is a slightly different shade of yellow every day, then the artist has a right to his own sun and his own sky, his own version of the world and its colours. Each composition is as boundless as the Atlantic Ocean. Each work has its own Gulf Stream directing your gaze, leading it to wherever the imagination will go among the melting pools of emeralds and blues. A painting has its own approach to each person who studies it, surely you need to listen to the painting. The painting does not demand that we learn its language. It speaks to each of us in our own.

Born in Ukraine in 1956.

Education: Kyiv State Academy of Arts (1978-1984).

Member of National Artist's Union of Ukraine since 1990.

Governmental Organization "Of Grants, Ratings and Nominations" Order "Credo-Ad-Astra".
